

Assignment 1

Web Technologies

Submitted to: Prof. Usman Akram

Submitted by: Zainab Hussain

FA24-BCS-115

Semester: 5th

Course Code: CSC336

Dated: 27/09/2026

Department of Computer Science,
COMSATS University Islamabad, Lahore Campus

Task: Build a single-page personal CV/résumé as a static HTML + CSS website — no JavaScript, no framework, just semantic HTML5 and hand-written CSS. This is where you prove you actually know the raw building blocks before anything is allowed to hide them from you.

Your page must include, at minimum:

- A header with your name, a short professional tagline, and a photo (a placeholder image is fine).
- An “About Me” section.
- An “Education” section listing your academic history in a semantic list or table.
- A “Skills” section.
- A “Contact” section with a real `<a href="mailto:...">` link and at least one social/portfolio link.
- Correct use of semantic HTML5 elements throughout — `<header>`, `<nav>`, `<main>`, `<section>`, `<article>`, `<footer>` as appropriate, not a page built entirely out of unstyled `<div>`s.
- Styling entirely in a separate `styles.css` file (external stylesheet, not `inline style=""` attributes) using the box model correctly — sensible margins, padding, and borders, not everything jammed against everything else.

Skills

✓ **Primary Language:** Java (OOP, JavaFX, Event-Driven Programming, GUI Development, Game Logic, AI Decision Systems)

✓ **Additional Language:** Python, C++, HTML, CSS, JavaScript

✓ **Java Frameworks and Tools:** JavaFX, Object-Oriented Design Patterns, IntelliJ IDEA

✓ **Backend Development:** ASP.NET Core MVC, Entity Framework Core, Flask (Python)

✓ **Frontend Development:** Razor Views, JavaFX, Bootstrap 5, JavaScript, HTML/CSS, Responsive Design

✓ **Artificial Intelligence:** Rule-Based Expert Systems, Forward Chaining Inference Engine, Certainty Factors (Mycin-style), Knowledge Base Design, Explainable AI (XAI)

✓ **Database:** Microsoft SQL Server, SSMS, SQL (DDL/DML/DCL), Stored Procedures, Views, Indexes, Scalar Functions, Database Normalization

✓ **Cloud and Networking:** Microsoft Azure (Azure Portal, Azure Services), Cisco Networking, Computer Networks, TCP/IP, LAN/WAN Fundamentals

<section id="about-me">

<h2><em>About Me</em></h2>

<hr />

<p>

Third-year Computer Science undergraduate at COMSATS  
University

Islamabad (CGPA: 3.84/4.00) with strong hands-on expertise  
in Java

application development — having built multiple production-  
quality

Java and JavaFX applications covering AI decision systems,

real-time

GUIs, event-driven programming, and game logic.

Additionally

experienced in full-stack web development (ASP.NET Core MVC, Flask),

relational database engineering (SQL Server), and computer networking

(Azure, Cisco). Proven ability to independently design and deliver

complete end-to-end software solutions across multiple domains.

Passionate about Java, Artificial Intelligence, and building technology that solves real-world problems.

</p>
