

Assignment 1

Web Technologies

Submitted to: Prof. Usman Akram

Submitted by: Zainab Hussain

FA24-BCS-115

Semester: 5th

Course Code: CSC336

Dated: 27/09/2026

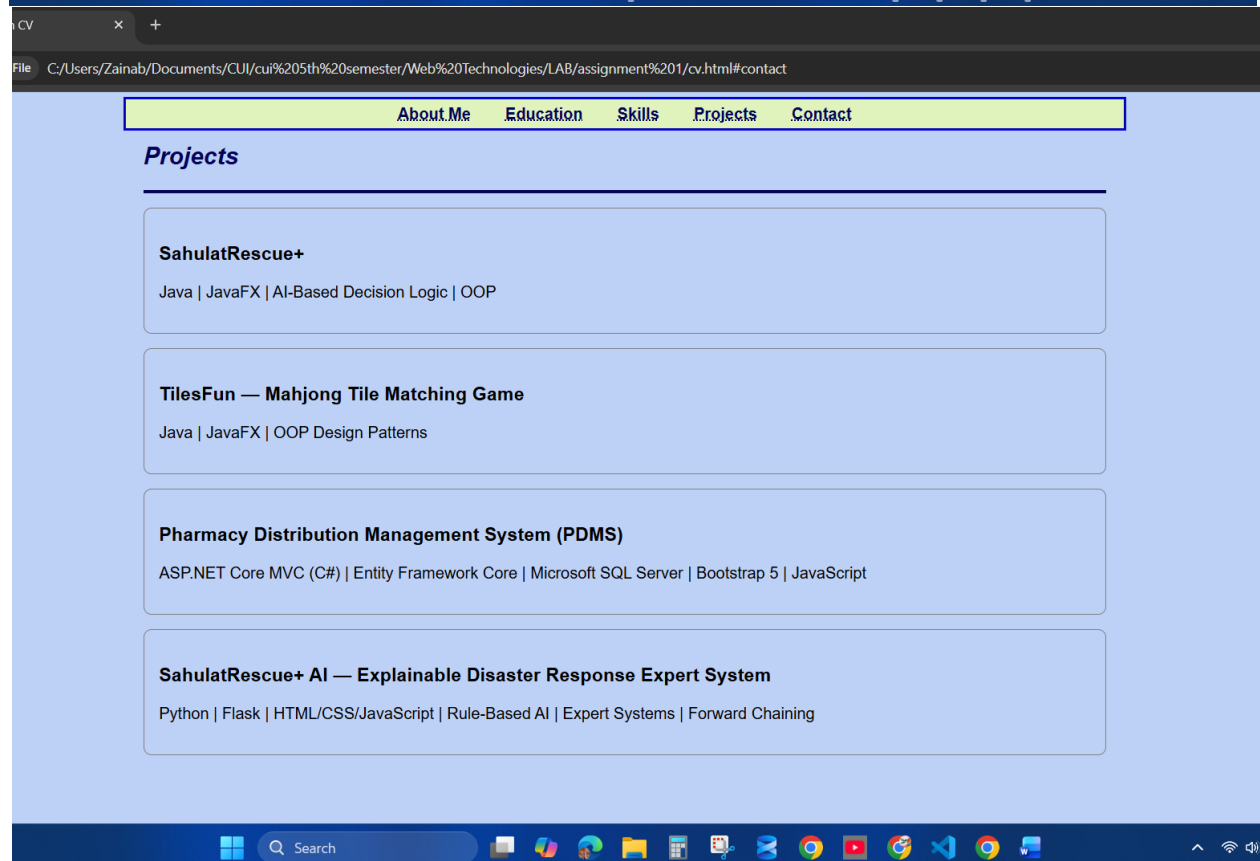

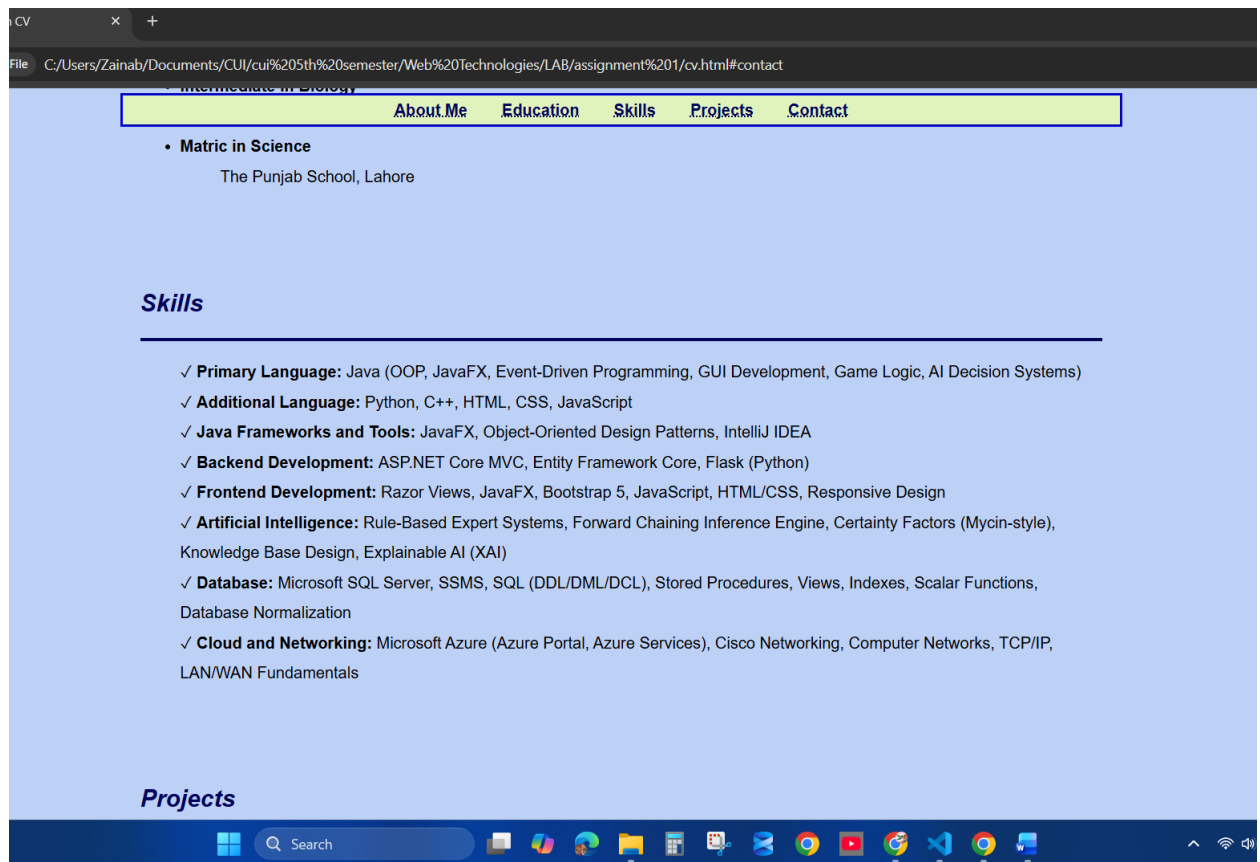

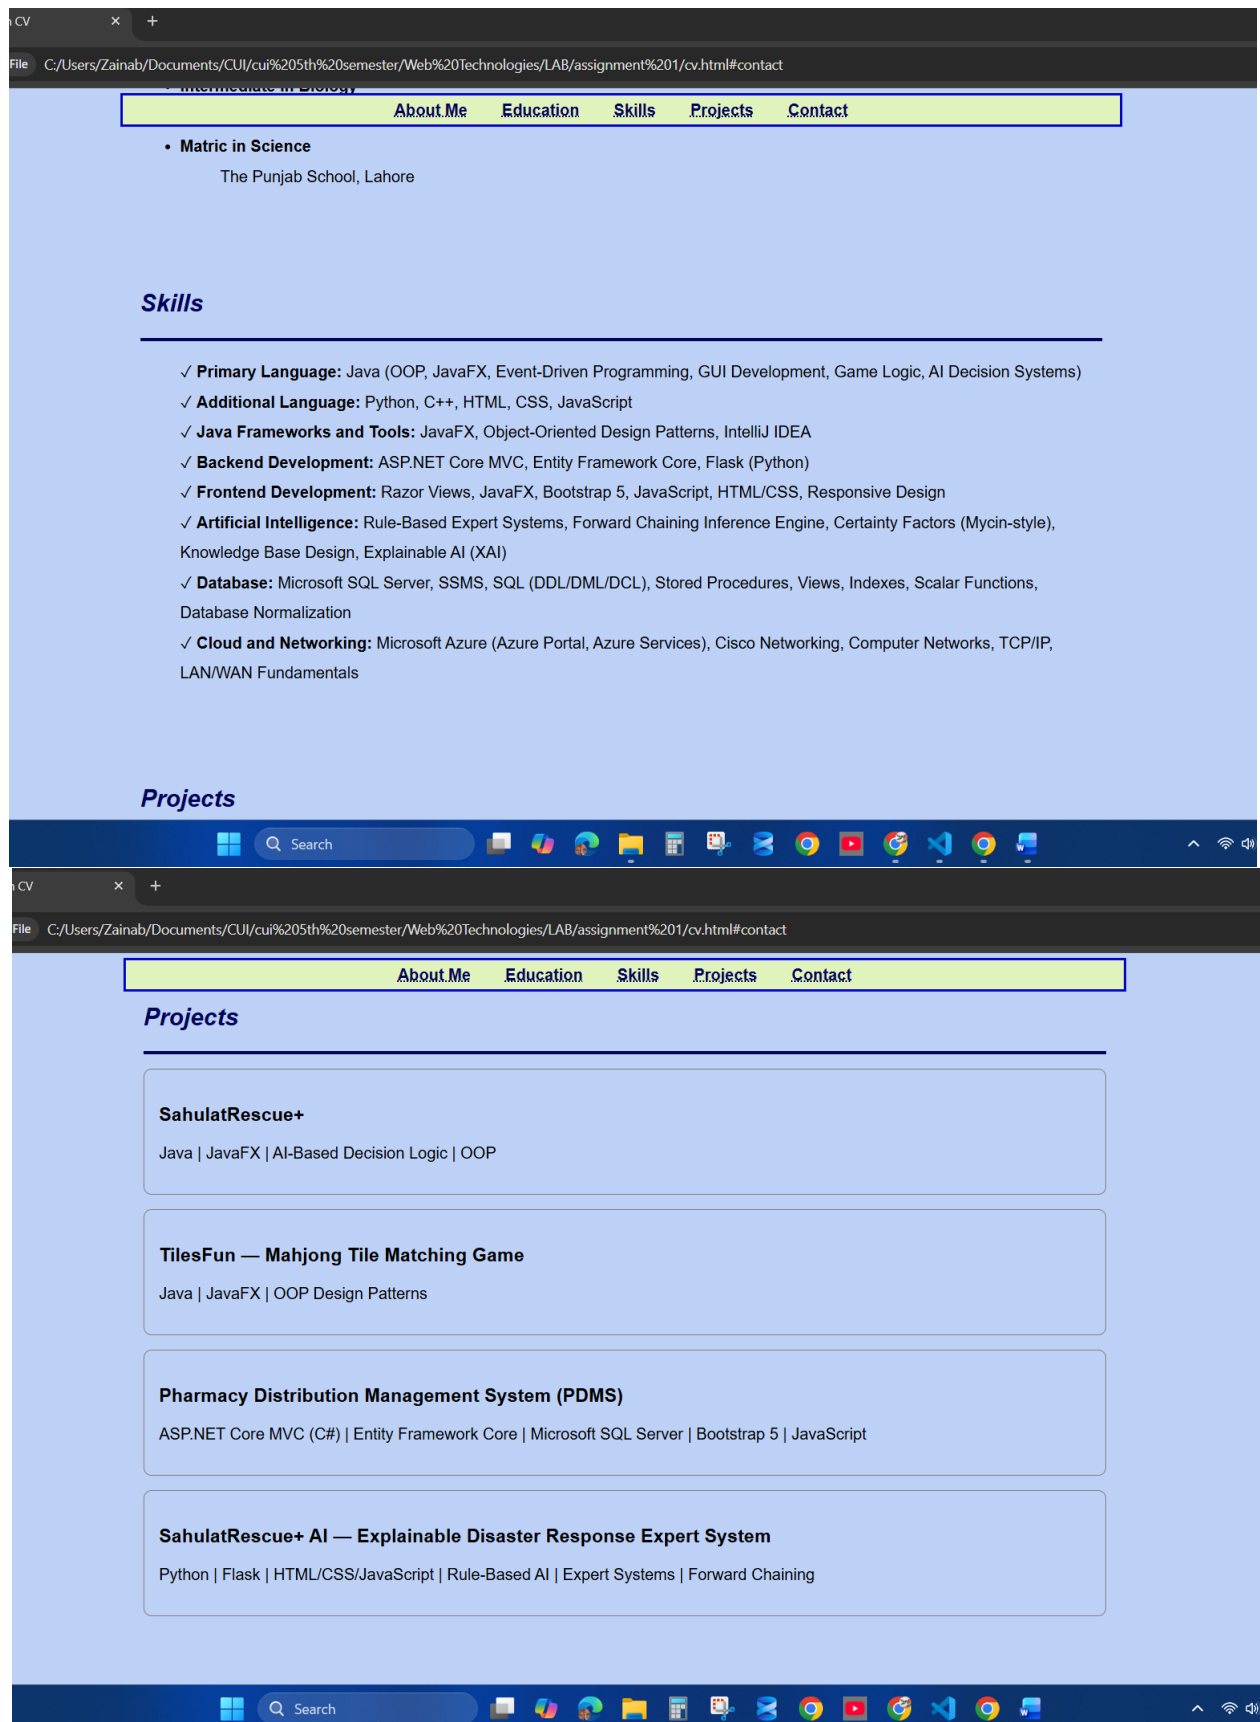

Department of Computer Science,
COMSATS University Islamabad, Lahore Campus

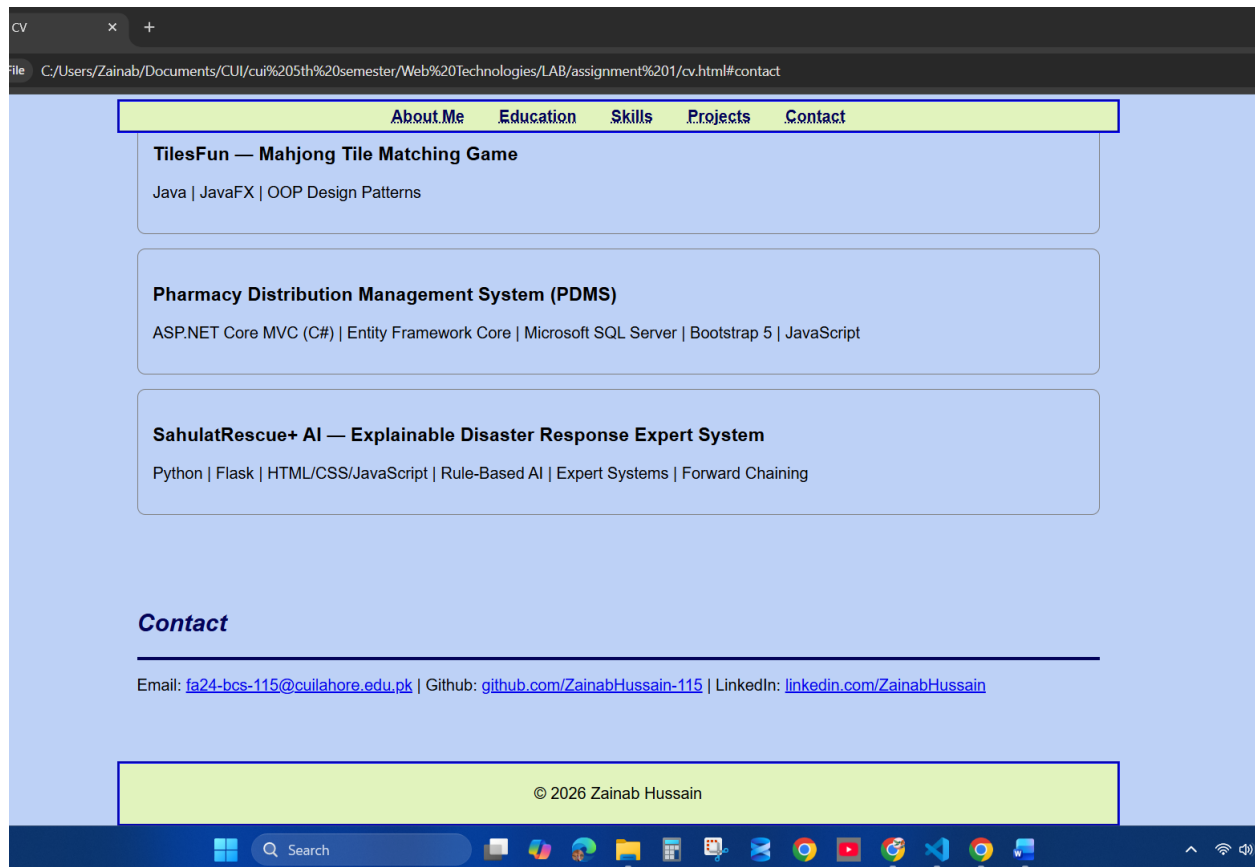

Task: Build a single-page personal CV/résumé as a static HTML + CSS website — no JavaScript, no framework, just semantic HTML5 and hand-written CSS. This is where you prove you actually know the raw building blocks before anything is allowed to hide them from you.

Your page must include, at minimum:

- A header with your name, a short professional tagline, and a photo (a placeholder image is fine).
- An “About Me” section.
- An “Education” section listing your academic history in a semantic list or table.
- A “Skills” section.
- A “Contact” section with a real `<a href="mailto:...">` link and at least one social/portfolio link.
- Correct use of semantic HTML5 elements throughout — `<header>`, `<nav>`, `<main>`, `<section>`, `<article>`, `<footer>` as appropriate, not a page built entirely out of unstyled `<div>`s.
- Styling entirely in a separate `styles.css` file (external stylesheet, not `inline style=""` attributes) using the box model correctly — sensible margins, padding, and borders, not everything jammed against everything else.

CODE

CV.HTML

```
<!doctype html>
<html lang="en">
  <head>
    <meta charset="UTF-8" />
    <meta name="viewport" content="width=device-width, initial-scale=1.0" />
    <title>Zainab Hussain CV</title>
    <link href="cvstyle.css" rel="stylesheet" />
  </head>
  <body>
```

<header>

<h1>ZAINAB HUSSAIN</h1>

<p>Java Developer | Full-Stack Developer | AI & Networking</p>

</header>

<section id="about-me">

<h2>About Me</h2>

<hr />

<p>

Third-year Computer Science undergraduate at COMSATS University Islamabad (CGPA: 3.84/4.00) with strong hands-on expertise in Java application development — having built multiple production-quality Java and JavaFX applications covering AI decision systems, real-time GUIs, event-driven programming, and game logic. Additionally experienced in full-stack web development (ASP.NET Core MVC, Flask), relational database engineering (SQL Server), and computer networking (Azure, Cisco). Proven ability to independently design and deliver

complete end-to-end software solutions across multiple domains.

Passionate about Java, Artificial Intelligence, and building technology that solves real-world problems.

</p>

<h2>Skills</h2>

<hr />

Primary Language: Java (OOP, JavaFX, Event-Driven
Programming, GUI Development, Game Logic, AI Decision Systems)

Additional Language: Python, C++, HTML, CSS,
JavaScript

Java Frameworks and Tools: JavaFX, Object-Oriented
Design Patterns, IntelliJ IDEA

Backend Development: ASP.NET Core MVC, Entity
Framework Core, Flask (Python)

Frontend Development: Razor Views, JavaFX,
Bootstrap 5, JavaScript, HTML/CSS, Responsive Design

Artificial Intelligence: Rule-Based Expert Systems,
Forward Chaining Inference Engine, Certainty Factors (Mycin-style),
Knowledge Base Design, Explainable AI (XAI)

Database: Microsoft SQL Server, SSMS, SQL
(DDL/DML/DCL), Stored Procedures, Views, Indexes, Scalar Functions,
Database Normalization

Cloud and Networking: Microsoft Azure (Azure
Portal, Azure Services), Cisco Networking, Computer Networks,
TCP/IP, LAN/WAN Fundamentals
